

NANOWARE

5

GENERAL OBJECTIVES OF THE PROJECT

The primary objective of this project is to develop a new curriculum capitalizing on new media technologies accompanied by a specialized delivery methodology for the teachers to administer the learning process to their pupils in the most effective manner.

01

Create and manage a specialized website to inform about nanoscience and nanotechnology and providing access to the learning material

02

Provide the necessary resources and tools for delivering the learning material in the classroom.

03

Design campaigns aiming to generate interest about the subjects of the new curriculum.

04

Reach out to schools with the aim of informing them about the website and learning content.

05

Development and testing of a set of 'best practice' recommendations for professional working with children for the use of ICT in E&T.
