

Co-funded by the European Union

## NANOWARE

The NANOWARE project is a European co-funded project that aims to inform and raise awareness of nanotechnology among teachers and students in Europe.

**3 NANOWARE Minecraft Worlds:**

<https://education.minecraft.net/en-us/get-started/download>

### Nanotechnology in Classroom World

Teach about the history of nanotechnology and its different applications through time

### NanoLab World

Teach the methods of analysis of nanomaterials and of the different properties of the latter

### NANO-X World

A representation of Nanotechnology Exhibition

**1 Educators' guide included:**

This guide is a valuable resource for those who want to create a more solid Minecraft Education by providing both a theoretical and a pedagogical framework for STEM. Directed to teachers, educators and IT specialists to guide their trainees in achieving the challenges of the game. The guide is strictly for teachers and people you will internally pilot the game. Students do not need access to this information.
