Newsletter 4

April 2024

Welcome to NANOWARE!

NANOWARE – Increasing Nanotechnology Awareness in European Schools is an ERASMUS+ funded project led by DigiCULT (PL) with partners representing organisations in the Netherlands, Cyprus, Greece, Turkey and Romania.

Completed Project Results:

- Delivered to the school community an educational package comprising a new curriculum for NST targeting secondary education
- Created instructional material and a guide with the help of the teachers to decide upon the contents of the educator's pack in relation to the use and integration of the Nanoware Minecraft World to the teaching setting.
- Created a virtual space, the Nanoware Foundry where teachers and other stakeholders can share knowledge and best practices.
- Implemented the NANOWARE Minecraft world, enriched with resource packs and mods and model inside it the NST related challenges

The last months of the project specific tasks were completed:

PR1 & PR2 EXTERNAL PILOTING

PR3: NANOWARE Foundry R3/T3.2 Nanoware Foundry recommendations pack

The Foundry is almost ready. It will be uploaded into the platform and we will proceed with the translations immediately.

R3/T3.3 Nanoware skills & achievements framework

The Badges are ready and uploaded into the platform. Badges will be translated.

R3/T3.4 NANOWARE Foundry Roll out

Partners will promote the Foundry space, uploaded it into the platform.

Next online meeting:

15/04/2024, 12 am CET

Final report: after 30.04.2024

Project Objectives

NANOWARE is an ERASMUS+ funded project that hopes to increase awareness of nanotechnology among European science teachers of secondary education, especially for the purpose of making the school children become aware of developments in nanotechnology, and of the importance of NST to our society and economy and subsequently to their professional career in the future.

Meet the Partners

Digicult
*ICT & Digitalisation of Culture
(Project coordinator)*

ATERMON
EDUCATIONAL PLAY
*Atermon (NL) – a Dutch
company specialising in
gamification and educational
technology*

Asociatia Direct
Romanian NGO

HeartHands Solutions (CY) –
*a dynamic consultancy
company based in Cyprus*

Pamukkale University
Higher Education Institute

Learning Seed
Greek NGO
